

Skip the drugstore – have your medicine delivered to your home!

Why wait in line at the drugstore if you don't have to? If you take prescribed medicine on a regular basis, you can get up to a 90-day supply delivered to your door.¹ And depending on your plan, you may save on copays because the cost of a 90-day supply of many drugs is usually less than three 30-day refills. Standard shipping is free, and you can even set up automatic refills and renewals, and get your medicine sent to you automatically before your next refill date.

Missing even one dose of your medicine that treats long-term conditions like high blood pressure or diabetes may lead to serious health problems and higher costs. That's why home delivery is a great way to make sure you get your prescription refills when you need them.

Getting set up for home delivery is easy!

There are multiple ways to get started:

- Call the **Pharmacy Member Services** phone number on the back of your health plan ID card.
- Mail a completed Home Delivery Order Form along with your prescription. This form can be found online [anthem.com](https://www.anthem.com). Choose **Individual & Family**, then **Forms**.
- Online through [anthem.com](https://www.anthem.com) or the Sydney mobile app.
- Have your provider send us the prescription request. Just notify your provider that you would like to change the prescription to a 90 day supply to be delivered to your home.

- All prescriptions and refills, including those sent by your doctor, will be filled as soon as the home delivery pharmacy gets them.
- In most cases, your first order will arrive within two weeks. After that, the orders will arrive within one week.
- If you need your medicine sooner, you can call the home delivery pharmacy and ask for overnight delivery. You'll be charged extra for the faster shipping.
- Your orders will be delivered by the U.S. Postal Service, UPS or FedEx.
- With some drugs, you may need to sign to accept delivery.²

¹ Supplies vary based on your pharmacy plan design.

² Drugs that are defined as controlled substances are highly regulated, which requires the home delivery pharmacy to follow special rules for filling these prescriptions.
