Make check in simple with your
Digital ID Card

Once your coverage has started, download the no-cost Kaiser Permanente App so you can access a digital version of your ID Card.

1 Download the Kaiser Permanente app for Apple devices from the App Store, or for Android devices from Google Play.*

2 Log in to set up your secure online account.

3 Tap on the card icon to access the digital membership card.

4 The next time you check in for an appointment, ask to have your photo taken. We'll upload it to the KP App so that your ID Card and photo ID will be together in one place.

These features are available when you get care at Kaiser Permanente facilities. Apple, the Apple logo, and iPhone are trademarks of Apple, Inc., registered in the U.S. and other countries. Google, the Google Play logo, and Android are trademarks of Google LLC.
